EDMONTON, ALBERTA, WEDNESDAY, DEC. 2, 1953

LAC LA BICHE MAY GET \$1,000,000 NEW CONSTRUCTION IN '54 BUILDING

By T. W. PUE

Three big building projects planned for Lac la Biche next year may bring a record total building program of nearly a million dollars.

The Province of Alberta is expected to put up a new Provincial Building on the corner opposite Lakeview Motors. This would house the Treasury Branch, Telephone, Liquor Store and other Provincial Government offices.

A new Federal Government of Canada building may be erected on the vacant corner next to the present Telephone Exchange building. The Post Office, RCMP and other government offices would be located here.

Details are soon to be announced on another big building that has already been approved.

LARGER TUNNELS: Like miners tackling an ore seam, this Canadian Pacific stoping team drills holes in rail tunnel facing to take a powder charge which will blast away projecting rock to provide extra margin for modern spring action of smooth-riding "scenic dome" observation cars which the Canadian Pacific railway expects for transcontinental service next year.

Bishop Lussier Visits Atmore RC Church

Miss Katherine Gregus Wed In Holy Trinity Church

For the first time the Roman Catholic Church of Atmore received a visit of its bishop, His Excellency Louis Philip Lussier, appointed to the head to the diocese of St. Paul on June 28, 1952. His Excellency was a member of the Congregation of the Redemptorist Fathers. Though born and brought up in Quebec, he speaks English fluently having taken part of theology with the English Redemptorists and afterwards studied in the States. In charge of Lac pilgrimages of Ste. Anne de Beaupre, His Excellency travelled in Europe and Palestine in order to acquire further knowledge in the organization of pilgrimages. A very good orator, he is one of the first bishops of the west who has undertaken the great task of preaching at least one retreat in every one of the parishes of his diocese.

On the occasion of his visit he administered the Sacrament of Confirmation to 19 children. This sacrament is usually conferred by the bishop.

His Excellency was accompanied by his secretary and chancellor of the diocese, Rev. Franklia Pothier. Also present were Rev. A. Ricard of Plamondon and Rev. M. Cloutier O.M.I. of Lac la Biche Mission. After having had supper at Mr. Jean LeRouze, His Excellency motored to Lac la Biche. While preaching a retreat this week in Plamondon, Bishop Lussier will visit the surrounding parishes and missions of his diocese.

PROSPERITY — On Saturday, November 21, Miss Katherine Gregus, daughter of Mr. and Mrs. Gregus of Blue Jay was united in the Sacrament of Matrimony to Mr. Mike Lewicki, at the Holy Trinity Church at Prosperity.

The reception was held at the Willow Flat Hall. The bride's table was beautifully decorated with flowers and centred with a three-tiered wedding cake.

The bride and groom were attended by six bridesmaids and best men.

Following the reception a dance was enjoyed by everyone.

Married 15 Years Couple Feted By Friends

SPRUCE VALLEY — On Tuesday, November 24, a surprise party was held at the home of Mr. and Mrs. Wm. Mahaden in honor of their 15th wedding anniversary.

The table was decorated with flowers and centred with a three-tiered wedding cake.

Mrs. Olga Zilinski was the bridesmaid and Mr. Steve Mahaden was the best man.

The bride and groom received a large mirror as a gift from the relatives, and a set of dishes from the many friends gathered there.

The ladies served a delicious lunch and the evening was enjoyed by all.

Lac la Biche High School News

At the last meeting of the Students' Union it was decided to sponsor a floor show and dance at the Memorial Hall on December 11. Mr. J. Strembitsky is in charge of arrangements for the floor show, while Rose Danyluk is the social convener.

Robert Wilstenholme has left classes for a future as yet undecided. Whatever it is Bob, everyone wishes you luck and success.

Great interest is being shown by the high school students in the prospective Curling Club. A meeting will be held in the near future to make specific plans for organizing the group.

Top bowlers in the Students' League last week were: Robert Langevin, 252; Wilf, Woychuk, 223 and Joan Kibbe 213.

RENOVATION COMPLETED AND 5c TO \$1.00 STORE RE-OPENED

Last month the 5c to \$1.00 store re-opened after considerable work was done on the premises. The biggest job was the laying of a new floor.

While the store was being renovated merchandise was stored at

York Hotel Will Provide Fine Accommodation For Tourists

By T. W. PUE

LAC LA BICHE — Tourists coming to this scenic northern town in the future will be able to enjoy the best of accommodation at the York Hotel, which is scheduled to open soon.

The Lac La Biche area has always been considered one of Alberta's potentially best tourist areas, but development has been slow in the past, partly because of the town's distance from the main part of the province, and because of limited accommodation.

It is freely admitted that Lac La Biche enjoys some of the best fishing and recreation spots in the province, although with a fine summer-time climate.

Completion of Ross Stefanik's new 24-room hotel will be welcomed by travellers, visitors and tourists alike, as it offers accommodation equal to that found anywhere.

An experienced hotel man, Mr. Stefanik had the comfort of his guests uppermost in his mind when he designed and built the new structure.

"We have done our very best to put up a hotel all our guests will

enjoy," he said, "and we hope that after they have visited us once they will come back many times in the future."

Any growth in the tourist business resulting from the facilities available at the York Hotel will benefit the entire town of Lac La Biche.

With the town continuing to grow and develop, the hotel makes a fine addition and reflects the general prosperity of the area.

M.D. ATHABASCA

CHANGES MADE ON ONLY TWO ASSESSMENTS AT COURT REVISION

MEANOOK — One assessment was cancelled and another reduced by \$100.00 at the Court of Revision held in October. The Council of the Municipal District of Athabasca adjourned the council meeting and then sat as a court of revision to hear appeals against assessments. The following appeals were dealt with:

Mrs. A. Smith, house on L.L. 10-66-24-4. Assessment cancelled.

T. Lines, N.E. 11-66-22-4 and S.E. 11-66-22-4. Moved a cut of \$100.00 on each quarter. Carried.

A. and L. Hrynyk, Lot 13, Block 2, Grassland. Moved, no change. Carried.

Boyle Lumber Co. Building on Lot 12, Block 4, Boyle. Moved, no change. Carried.

P. Kuzyk, N.E. 1-66-24-4. Moved, no change. Carried.

D. Devlin, N.W. 12-67-23-4. Moved, no change. Carried.

J. Schwaga, N.E. 5-69-22-4. Moved, no change. Carried.

J. Schwaga, N.W. 5-69-22-4. Moved, no change. Carried.

Carl Faragini, Part of S.E. 8-66-22-4. Buildings. Moved, no change. Inform him of the regulations. Carried.

Adjournment as a court of revision, Councillor then re-convened the council meeting.

Baby carriages were made in Canada as early as 1885.

Man Seriously Injured While Working In Bush

GRASSLAND — Mr. A. Bourassa, while working for Mr. Keith McDonald in the bush north of here, was seriously injured when a tree fell on him. He was rushed to the Lac la Biche Hospital, where it was found he was suffering from a broken shoulder blade.

Mr. Don Corse and Mr. Mike Duniec were seen washing their cars out in the open air on Sunday—something new for this time of the year.

Mr. George Chaplin is in the hospital at Lac la Biche and expects to be home next week.

St. Catherine's Hospital Report

Patients from Nov. 18 to 25, 1953, were:

Louise Jodoin, Mallaig; Sylvia Teha, Lac la Biche; Edith Ann Kupchanko, Lac la Biche; Arphir Cadieux, Lac la Biche; Pauline Maurier, Legal; George Chaplin, Grassland; Gabrielle Thibeault, Faust; Mabel Whitford, Lac la Biche; Gordon Mollott, Grassland; William McCormick, Lac la Biche; Mrs. Adelard Cardinal, Lac la Biche; August Gatzke, Lac la Biche; Mrs. Samuel Clarke, Lac la Biche; Mrs. Albert Cardinal, Beaver Lake; Mrs. Leo Gaudet, Gouvin; Andre Gattoliat, Briereville; Ronald Ponich, Breynet; Edease Bourassa, Atmore; Caroline Small Face, Beaver Lake.

Births recorded were: To Mr. and Mrs. Harry Beniuk, Craigenid, a son, Nov. 23, 1953.

Helina

Many of the district folks, young and old, attended the chicken supper and dance at Rich Lake on November 20. A good time was reported by all.

Lac la Biche Mission

Gerard Bourget came from Montreal and is visiting his relations. He is in the Air Force.

Germain Routhier is working for Mr. O. Poulin at the Atmore Hotel. Roland Routhier is back home for the winter.

Paul Cloutier is back home. He was at Legal for the summer.

The Bishop from St. Paul was here Saturday for the Confirmation. There were about 75 children and they made their First Communion along with a few from other districts. Rev. Father McGrane was here for the ceremony.

Rev. Father Levert and Rev. Father Cloutier went to Normandau to attend the Confirmation.

Mr. and Mrs. E. Cloutier were Godparents for the children at the Confirmation at the Mission.

They are fixing the culvert on the highway and it's a great improvement.

Egg Lake

On November 19th Mr. and Mrs. A. L. L'Heureux had the pleasure of having for supper Mr. and Mrs. McKaskill, Mr. and Mrs. J. Kim of Imperial Bank of Lac la Biche, and Mr. Lore, D.A., of Lac la Biche, and Mrs. Lore.

Mr. Joe L'Heureux is now working for the Mastaler Motors at Lac la Biche.

Mr. Alphonse Langevin is working for Maurice Lebeuf.

Mr. C. Hamel of Lac la Biche has come to spend a week with Mrs. L. C. Amiot before leaving for a trip to Quebec.

On Nov. 7th Mrs. Gerald Lachance and Laurier Leclair of radio station CHFA came to the home of Mr. and Mrs. L. G. Amiot to record a program which will be broadcast in the near future.

FAMILIARITY OF WOOLS
LEADS TO BETTER BUYING

By JOYCE McCUTCHEON, D. Ec., WESTLOCK

Do you know how to judge the quality of sweaters on the market? You should be familiar with different kinds of knitting, quality of the material, methods of construction and the types of workmanship. Take a close look at the fabric of a sweater before you buy. There are a variety of stitches used in knitting a sweater. The plain stitch is likely the most common because it can be knit rapidly and is so inexpensive to manufacture. "Shaker Knit" is the name given to a plain knit when a heavy yarn and a coarse stitch are used. This is found mostly in sportswear or work sweaters. Cable stitch, a combination of plain and purl stitches, gives a pattern similar to a twisted rope. This is used both in sportswear made from heavier yarn and in dressier sweaters of fine yard. Jacquard knit is an intricate pattern stitch which is extra warm because it is usually double knit. You will recognize a double knit sweater if the pattern colors are reversed on the wrong side. The fineness of knit fabrics depends on the gauge—the number of stitches within a space of 1½". A higher gauge means a finer knit. Heavy gauges are best suited to fine yarns, low gauges to heavy yarns. If the gauge is right, the fabric should be firm which ensures protection against pulling and snagging of yarns and loss of shape. Poorly knit fabrics may be stretched to size by the manufacturer and will snag easily. They will also lose their shape.

1. In handings, look for a firm close knit that will stand strain without losing shape and elasticity. Stretch the banding between your hands and let it spring back. It should spring back quickly to its original shape.

2. The ribbed banding should be knit with a higher gauge than the body of the sweater. Compare the size of stitches.

3. Fibres are made into yarns for knitting. A loosely twisted yarn makes a soft, flexible sweater. However, this tends to pull with wear—the fibres form little balls on the surface of the knit fabric. This will not happen if the yarn is tightly twisted. Sweaters made of yarns too tightly twisted do not have a soft feel.

4. Every wool garment should carry a label that states whether it is "wool", "reprocessed wool", or "re-used wool". If other fibres have been blended with the wool, the label should state the percentage and kind of each fibre. Reprocessed wool is made from fibres

reclaimed from woven or felted materials that have not been worn or used. Re-used wool is made from woven or knitted materials that have been worn or used. This is used in lower priced merchandise.

Take a sweater in your hand and gently squeeze the fabric. High-grade wool will feel soft, light-weight, and firm. The degree of softness depends on the type of sweater you want and weight of yarn that is practical. A poor-quality wool will feel harsh, rough and scratchy. Remember that reading the label is one of the best ways of getting accurate information. Next week, this column will deal with fibres used in sweaters; workmanship and shaping; neck finishes, front openings, and buttonholes.

If there are any organizations interested in having the Christmas demonstration, "One Jump Ahead of Christmas", please write to the address above. This topic consists of ideas for gift-wrapping; making tree or house decorations; planning your Christmas table, and ideas for gifts.

Official statistics show that in the next four years the engineering courses of Canadian universities will graduate only 50 per cent of the engineering talent required to fill immediate needs of the Dominion.

\$1 for Favorite RECIPE

SHIPWRECK

2 Onions
About 3-4 potatoes
About 1/2, or 3/4 lb. hamburger
1/2 cup rice (partially cooked)
1 tin tomato soup
1 tin hot water

Slice ingredients, in order given with salt and pepper to taste between each layer. Then pour tomato soup and hot water over top. Bake about two hours.

"It's really good," says Mrs. Kay Farnholz of Garden View, of her "Shipwreck" recipe. Why not give Mrs. Farnholz' recipe a try-out in your own kitchen. She won \$1.00 for having her recipe accepted for publication this week.

CHOCOLATE BROWNIES

1/4 cup butter
1 cup sugar
2 eggs
2 tbsps. cocoa
1/2 cup flour
1/2 cup nuts

Bake 20 to 30 minutes in slow oven. Cover with brown icing.

Most Favorite Recipes are sent in by members of the fair sex, but this one was contributed by Howard Adam of Onoway, who received a \$1.00 check. Send your Favorite Recipe to P.O. Box 4430, South Edmonton.

THE LIGHTER SIDE

Because of the outburst of youthful gangs, a judge suggests the old woodshed treatment. A good way to thrash things out.

A visitor calling on a young married couple marvelled at the speed with which their five children were bathed and put to bed. "How do you do it so quickly?" he asked.

"Oh, it's not too bad," replied the wife. "I wash and Bill wipes."

Little Girl: "Daddy, why do editors refer to themselves as 'we'?"

Dad: "So that the fellow who doesn't like what he's printed will think there are too many for him to beat up."

A husband and wife could not speak to each other except in the deaf and dumb language. One night when the husband came home rather late the wife let him have her raging anger, her fingers flying a mile a minute.

Just as he raised his hands to answer her, she turned out the light.

"Joe says he's a confirmed bachelor from now on."

"Yeh, poor Joe. Sent his picture to the Lonely Hearts Club and they sent it back with a note, 'Thanks, but we're not that lonely.'"

Small boy—An ounce of castor oil, please.

Druggist—Ah, the tasteless kind. I suppose.

Small boy—It doesn't matter, it's for father.

"Begging, eh? Well, maybe I can help you." See that pile of wood?"

"Yes, lady, I seen it."

"What grammar! You mean you saw it."

"No, lady, you saw me see it, but you ain't seen me saw it."

"Tell me what you eat and I'll tell you what you are," said a lunch-counter philosopher. Whereupon a meek little man, sitting a few stools away, called to the waitress, "Cancel my order for shrimp salad, please."

First boarder — Fine manners you have, taking the biggest chop on the platter. If it had been me I'd have taken the smallest.

Second boarder — Well, you've got it, haven't you?

"It's awfully late!" he remarked to his friend after a long session at the club. "What will you say to your wife?"

"Oh, not much, you know," was the reply. "Good morning, dear, or something of that sort. She'll say the rest."

A lady on a TV quiz program was asked, "What state is noted for its orange groves, movie studios, and song starting 'Da-da-da-da Heré I Come'?" She answered, "Illinois". In a deeply pained voice, the MC told her, "I'm afraid that's just a wee bit wrong. The state we were thinking about was California." "I knew it all the time," maintained the lady, "but I come from Florida. I'm darned if I'm going to advertise any other state."

A friend was telling me what nick-names fellow students in his class had for their teacher. I said, "That's nothing. You ought to hear what names we have for our teacher!" Then I turned around and saw my teacher standing beside me. Was I ever embarrassed! C. C.

Donnelly.

I remarked to a friend that mutual acquaintances would have done better not to have sent their wedding invitations on such cheap paper and phoned them instead. Glaring, she snapped: "We gave them the invitations as a wedding present!" Too late, I remembered that my friend's husband did amateur printing on the side. S.A.

Prompt Action On Polio

Citizens of Alberta do not fully realize the catastrophe that the current and still-raging poliomyelitis epidemic really is. Until this year we could always say that when cold weather hits Alberta, the polio germ was banished. But such is not the case this year. Children have been crippled and killed, mothers and fathers are encased in iron lungs. Three men, one a polio patient, one an experienced pilot and a doctor have apparently lost their lives on a flight from Grande Prairie to Edmonton.

Some doctors and nurses who have been attending polio patients have themselves been stricken.

One bright spot in the tragedy is the prompt action of the Alberta Government in flying 24 iron lungs from Boston to Edmonton for the use of polio patients and then in granting upwards of \$40 per day for the hospitalization, care and treatment of polio patients.

The best known defence against polio is to put to bed any person with a sore throat or fever of any kind and keep such a person warm and at complete rest until all danger of paralysis is past. One Edmonton doctor estimates that for every serious case of polio that is reported perhaps 9 and 10 persons are afflicted by the disease in a mild form and recognize it only as a bad cold or fever.

Banks Will Loan Money

Farmers who have good marketable stocks of wheat, oats and barley on hand but can't sell it because of the restricted delivery quota should see their bank manager if they need cash. Banks are in the business of loaning money and no government loan plan or government guarantee is necessary if the individual farmer hasn't already run his credit to the absolute limit.

Naturally, no body expects a farmer who is short of cash to borrow money to make unnecessary purchases. But to pay his past and current legitimate obligations—it's good business for the farmer to borrow money from the bank to pay up his bills.

Flying the Jet Streams

For the second successive winter, Pan American World Airways has announced it would take advantage of the Pacific jet stream. This stream was discovered by American bombers over Japan in World War II. and blows at a velocity of between eighty and a hundred miles an hour.

The Pacific jet stream varies in altitude from 15,000 to 25,000 feet, and blows from the west regularly only in the winter months. By riding in this stream, aircraft which normally average 280 miles an hour push their average ground speed up to 350 miles an hour.

By using the stream, the airlines eliminate the usual stop at Wake Island and fly nonstop from Tokyo to Honolulu.

The jet streams are not peculiar to the Pacific Ocean and occur in various parts of the world. No doubt in future years other airlines will take advantage of their presence, determine consistent courses, and arrange schedules to take advantage of the streams accordingly.

The speeded-up schedule means that passengers may now leave Tokyo at 11 p.m. at night and arrive in Los Angeles at about dawn the next morning, stopping only at Honolulu.

Cockroach Invasion

A new species of cockroach which bears its young alive, produces an offensive odor when disturbed and has a fondness for apples, dog food and grapes, has invaded New York City. Known as the Maderia roach, it is believed to have been introduced by migrating West Indians.

The Bible Today

All things are lawful unto Me, but all things not expedient: all things are lawful for Me, but I will not be brought under the power of any.

—Corinthians, VI: 12

Back To Studies

Well, the Grey Cup football season is all over again for another year. That's not surprising. After nearly three months of steady football chatter the season always ends—somehow. But it is disappointing because, once again Western Canada failed to make the Canadian championship. Edmonton lost to Winnipeg and then Winnipeg lost to Hamilton.

While father and junior have been thinking in terms of football heroes mother has her fondest hopes on her son becoming a graduate doctor of letters, philosophy, law or medicine. So now both parents have a few brief weeks wherein they can channel their children's thinking back along the lines of school studies.

But not for long! Hockey is on the ascendancy. And soon the home work and school books will be taking second place to the big league play-offs.

Ho hum. But for the time being it's back to studies.

Research Pays Its Way

At the University of Alberta, nutrition plays an important part in the experiments of the Poultry Division of the Department of Animal Science. The work of Dr. D. R. Clandinin and staff in correcting and improving a variety of poultry is reducing losses and increasing the income of Alberta and other poultry raisers.

One of the problems recently solved dealt with serious poult mortality and lack of thrift. Raising turkeys in confinement has its advantages, but the problem arises that ever single nutritional requirement must be provided. If any are missing, trouble results.

Five or six years ago, poult deaths of up to thirty or forty per cent were frequent in Alberta. Skin troubles, broken feathers, crooked legs and diarrhoea were prevalent. The condition increased in severity as the season progressed and heavy losses in groups of late hatched poults were common. Slow growth-rate and lack of uniformity in the groups also occurred.

Faced with this problem, the Poultry Division staff began their search for a solution. They recognized the importance of nutrition in defects of this kind. They also appreciated the similarity between the problem at hand and symptoms previously met of B vitamin deficiency in chick and poult starters.

A practical poult starter was made up, which included not only the vitamins A and D in required amounts but the B vitamins riboflavin, niacin, and choline. These proved insufficient and it was not until further additions were made that the problem was solved. Two others of the B vitamin complex proved to be the missing needs. When, in the form of calcium pantothenate and biotin, they were added to the ration in recommended amounts, poults free from abnormalities were raised and mortality was reduced to two or three per cent only.

With the problem solved, the recommendation was passed to the manufacturers, their co-operation solicited, and a better product for the poultryman provided.

Port Churchill Exports

The Wheat Board has achieved a new record in wheat exports through Port Churchill during the current season. Some 31 ships carried 10,784,000 bushels from that port as compared with 8,620,000 bushels during the 1952 season. The shipping season opened on July 31 and closed on October 15.

The extensive shipment of wheat through the Hudson's Bay this year reflects a great deal of credit on the Wheat Board. First, in selling that quantity of wheat under present circumstances and second, in timing the cargoes and the necessary inward shipments so that congestion was avoided. The Board has announced that the 2,000,000 bushel government terminal located at that port will shortly be filled with grain once again.

Note And Comment

Dear God, give us strength to accept with serenity the things that cannot be changed. Give us courage to change the things that can and should be changed. And give us wisdom to distinguish one from the other.—(Prayer attributed to Admiral Hart, United States Navy.)

Voice Of The People

Readers are invited to make free expression of opinion on any subject. Letters should be short and concise. The Editor reserves the right to condense or reject any letter.

SAYS MARLER WRONG

The Western Farm Unions are trying to get the Federal Government to make provision for some system of loans or advances to western farmers on the security of their grain, until a larger quota can be delivered.

While there may be some argument as to what percentage of farmers actually need advances, there is no doubt that a substantial number urgently require money in order to carry on and pay debts incurred for current expenses in connection with the crop. That being the case, we are making every effort to persuade the government to take action.

Naturally we are much disturbed over the telegram sent recently to Mr. Howe by Mr. Marler, president of the Alberta Federation of Agriculture. This telegram was in direct opposition to any assistance to farmers, and even questions the integrity of anyone advocating such a policy.

On behalf of the Farmers' Union of Alberta, which is a member body of the AFA, I want to make it clear that our union does not endorse the sentiments expressed in Mr. Marler's telegram. I consider the effect of this telegram as definitely detrimental to what we are trying to accomplish for western farmers on this particular question.

As Mr. Marler is the head of the AFA, any pronouncement by him is naturally regarded as official AFA policy, although in this case no such policy has been laid down by the AFA.

The Farmers' Union will continue its efforts to get financial assistance for needy farmers regardless of opposition from any source.

HENRY YOUNG, President.
Farmers' Union of Alberta.,
Edmonton.

NOTICE TO FRANK

I'm amazed that a man with a good, English name like Frank Tipping should want to extol the questionable virtues of Communism. What did dear old England do to you, that you should thus scorn her? Likewise, this wonderful country of Canada, where you are well fed and housed and safe from the terror of war?

You are safe and secure because thousands of fellow-countrymen laid down their lives in defence of our British countries and institutions. If you like the Communists so well, why don't you get the Canadian Government to send you to Russia? There you could enjoy the blessings of Communism to the full. And you might even be lucky enough to be exiled to Siberia.

Mrs. P.M.C.

STRANGE WAYS OF WOMEN

It was reported that Charlotte Whitton, Mayor of Ottawa, met the Governor-General at Rideau Gate wearing her robes of office, whereas she was reported to have met the President of the United States wearing only her Chain of Office. And the temperature was near freezing, too!

Such strange carryings-on for a mature woman of Charlotte Whitton's stature!

Perplexed Male.

Ottawa, Ont.

MARITAL SWAP

The Canadian and U.S. divorce rate is growing, largely on account of husbands who went overseas and fell in love with foreign girls or came home with strange habits. All right, in fairness to broken-hearted wives, let's make divorce easier, on one condition. For every Canadian soldier who brings home a foreign bride let's raise the immigration quotas and import one strong, healthy, unattached male of that country. If foreign females can get into this country by marrying our men, why not bring in some foreign men to marry us lonely and deserted Canadian women?

Brokenhearted.

LETTER TO LOUISA

Hopelessly in Love, Girl Wants Suitor to Present Ring for Christmas

Dear Louisa:

I have been going with Doug for three months. I am eighteen and he is nine years older. I work in another town and am with him each night of every week-end when I am home. I love Doug very much. Although he expresses a great love for me he has never told me that he loves me. I cannot get married for at least a year but would like to receive a diamond for Christmas. Should I tell him I love him and that I never want to leave him—but that I wish to marry him?

Desperate.

Answer:

It seems that your young man is one of those who is quite happy to enjoy the companionship of a nice young lady but doesn't want to take on the responsibilities of married life. You are right in wanting to put it up to him to declare himself for or against marriage. The only thing wrong with your suggestion is that you haven't been keeping company very long. On the other hand, he is old enough to realize that you don't want to spend all your life waiting for him to pop the question. And in this enlightened age I think you have a right to ask him to declare his intentions.

If you are certain he'd make a

good husband, and if you love him then tell him you'd like to announce your engagement at Christmas. If he isn't agreeable to that then it's time you sought the companionship of other young people. There is one good thing in your favor. You are still quite young with many years before you. If Doug shys away from marriage you have plenty of opportunity to meet some worthy young man who is willing to enter into a marriage contract.

LOUISA

Dear Louisa:

I am to be married next month and had planned to have my wedding in the church and a reception afterwards at my home. The reason I was not having the ceremony at home was that the house is too small to accommodate all the people I'd like to ask but at a reception they would be coming and going and not get all crowded up.

Now, I find that having the wedding in the church will be more expensive than I can afford and I don't know what to do. What would you suggest?

Bride-To-Be.

Answer:

If you are energetic and have lots of helpful friends, why not decorate the church yourself? Very often the florist will rent you palms, candleabra and flowers much cheaper than she will furnish and decorate.

If that is too much for you to undertake, I should invite all my friends to the reception a half hour later than the ceremony, and for that, have only the family and out-of-town guests.

World's Greatest Radio Transmitter Opened

The world's most powerful radio transmitter was opened in the Cascade Mountains of Washington State on Wednesday, Nov. 18. This station, costing \$14,000,000, uses 1,200,000 watt power. The antennas span 8,700 ft. between two parallel 3,000 ft. mountain peaks, and are connected by wires to the transmitter in the valley. This is a U.S. Government station and is claimed to be twice the power of any other military radio station and is said to be 22 times greater power than any commercial station. It is about 50 miles from Seattle.

Deepest sympathy goes to Mr. and Mrs. Nick Koschuk in the death of her sister, Mrs. Koschuck who was taken ill suddenly while visiting at her sister's place. Mr. Jos. Duigon took her to Edmonton but she passed away just before reaching the hospital.

Bernard Dakin and Lucien Duigon, with the help of all the young Bauer boys are very active flooding the rink. The new Monarch pump and engine is working splendidly. Ernest Baudreau was nice enough to lend his truck and tank. Next week another tank of 500 gallons will be fixed on the truck. They are now sure of having good ice. Goals, goalie pads and lights must be purchased. It is a community affair, so with the help of everyone it should be a great success.

Mr. Bill Duigon was in Edmonton for a few days.

Mrs. Jules Bossel with her children has left for a few days in Edmonton with Mr. and Mrs. Mike Iliecki.

Father St. Arnaud and Bernard Dakin attended Catherine Gregus' and Mike Levitski's marriage at the Greek Catholic Church of Prosperity last Saturday afternoon. Both found the ceremony very nice and impressive. To Mr. and Mrs. Levitski, congratulations and numberless years of happiness.

Mrs. Leo Gaudet is in the Lac la Biche Hospital.

Mr. Adeas Bourassa is back from the hospital. A falling tree hit him on a shoulder. It was completely put out of place. He will have to rest before being able to return to camp.

Spruce Valley

Congratulations are going out to Mr. and Mrs. John Pretula on the birth of an eight-pound baby son, Bryan Ross, at the Lac la Biche Hospital on November 18. Both are home and are doing fine.

Mr. Walter Zuber is spending a week's holiday with his parents. Mr. and Mrs. Mike Zuber.

LAC LA BICHE NEWS BRIEFS

Miss Sophie Paskar is now employed at the Alberta Cafe.

Mr. and Mrs. A. Wynorowich had as guest the father of the latter Mr. H. Foley, who is at present employed at Grande Prairie.

C. Calvert of Cold Lake spent the week-end visiting his family.

Mr. and Mrs. A. Wynorowich spent a few days in Edmonton during the week, where they visited with Mr. Wynorowich's sister, Caroline.

Mr. and Mrs. F. McIntyre journeyed to Edmonton to spend a few days with Mr. and Mrs. O. McIntyre, who were enroute home to Kelowna, B.C.

John Wilstenholme has returned to his RCAF base at Chatham after visiting with his family, the J. Wilstenholmes for the past month. Prior to his leave he was successful in obtaining his diploma in radar.

In the second to the last game before the playoffs the WI bowlers are in good form with top bowlers for the week being: Miss V. Wawawa, 241; Miss P. Malarchuk, 217 and Mrs. Lemay, 210.

The once-turbulent waters of the lake have now frozen in to a

beautiful sheet of ice, much to the delight of the local skaters. Precautions should be taken however, to have the youngsters supervised, and not let them get too venture-some and bold, as there are numerous holes cut in the ice off and on, which are a great hazard to the children. It won't be long now, the children hope, when the local rink will be flooded and they can skate on somewhat safer grounds, or should that be ice?

The Commercial Fishing Season for 1953-54 opens on December 1 for Lac la Biche, with the total pounds of pike, and ling to be taken out at 25,000. With the open fall weather, it looked doubtful that the lake would be frozen by that time, however, after a few cold nights the lake now looks like a sheet of glass and should be satisfactory for the fishermen.

HEALTH UNIT NOTES

Teach Children Obedience By Firmness and Making Few Demands

How can I teach my child to do what he is told is a question most frequently asked by parents about the training of a child. No one of them expects the answer to be simple and each of them knows that any method must be followed day in and day out, week in and week out, if it is to be effective.

With this in mind the following suggestions are offered as a means of achieving obedience.

1. Expect the child to obey. When you ask your child to do something, behave as if you expected him to obey. Never let him get the impression that you expect him to do otherwise. If you expect co-operation you are more likely to get it.

2. Make few demands. Make as few demands as possible but be sure that they are carried out by the child. Children should be trained to obey and to be of help but this can be achieved without giving orders continually.

3. Mean what you say. Always see that the child does what he is told. If you ask him to do something and then do not bother to see that it is done, he will soon get into the habit of paying you no attention.

4. Have the same general rules from day to day. Nothing makes it so difficult for a child to learn good habits as to be faced with demands which change from day to day. If you are lax with your child one day and strict the next, he is confused and in consequence becomes more difficult to handle.

5. Keep your temper. The surest way to make a child "balky" or sullen is to lose your temper. Either he will lose his temper too, or he will learn to hold a grudge.

6. "More flies are caught with honey." Try not to order your child to do things, ask him. Not only do you get more done by using this approach but you help the child to learn the habit of co-operation. By ordering him you are apt to "get his back up."

7. Avoid bribery and coaxing. Do not bribe or coax your child to do things. Don't say: "I'll give you a nickel if you will go to the store for me." This is bad because the child should learn that running errands is his own important contribution to the well-being of the household. Remember, also, that if you use bribery of this kind he will soon realize that he can bargain with you.

The "coaxing method": "Do this for mother's sake" is an admission of weakness and is unfair appeal to the child's sympathy. He will soon tire of it.

8. Give the child suitable duties. From a very early age a child should be asked to undertake certain duties. For example, he should be trained to put away his toys as soon as he is finished playing. In this way he will develop a habit of responsibility which will make it easy for him to co-operate in more important duties as he grows older.

Wants Dams Built To Restore Lake

EDMONTON (BUP) — One of Canada's "major" concentration spots for ducks and geese, Hay Lake, 180 miles east of Fort Vermilion, has almost completely dried up.

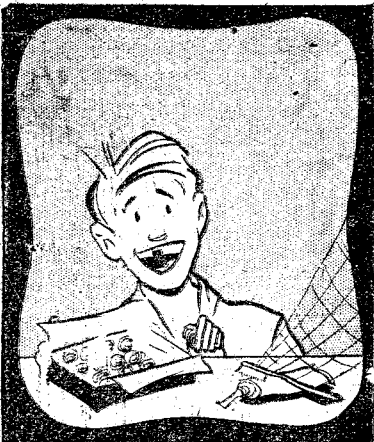

E. W. Burkell, provincial manager of Ducks Unlimited, said here on his return from a visit to the area that "there is hardly a lake left at all."

Burkell said small creeks still run through the area where the lake once was, and that a number of dams could raise the water level of the lake again.

He made the trip to Hay Lake by jeep, in company with R. I. Bjorklund, Alberta fur supervisor of the department of Indian affairs.

Burkell said that Ducks Unlimited will open negotiations with the fish and game branch of the department of lands, and with the water resources board to have dams built in the area.

Dept. of National Health and Welfare

Manning Talk Closes Meet.

At the present time Alberta could pay off its provincial debt and still have \$65,000,000 left over in the treasury, Premier E. C. Manning told the closing banquet of the Alberta Social Credit League convention in the Palliser Hotel last week.

His only regret, he said, was that the late Premier William Aberhart, who forecast such a turn of events, was not alive to see it.

Taking the cue from previous speakers, the Premier called for the spirit of the party pioneers but warned that methods successful in 1935 would not be today. Modern methods suited to the times must be adopted for the party's "On To Ottawa Drive."

Not less than one year before the next national election there must be a qualified Social Credit candidate in every federal constituency, he stated. This is being planned for, and when the other parties are running around trying to find people to sign nomination papers Social Credit will be able to say it has a dedicated candidate in every constituency.

Six Persons Hurt In Highway Crash

EDMONTON (BUP) — Six persons are in Edmonton's Royal Alexandra Hospital following a collision between a car and a truck about two miles east of the Oliver Mental Institute last week.

Injured in the pile-up were Lilian Herntstedt, Peter Stolarchuk, John Romanko, Doreen Cousins and John Ugancz, all of Edmonton, and Mrs. Cecile Paradis, of Fort Saskatchewan.

R.C.M.P. said the accident occurred when the car driven by Stolarchuk and the truck driven by Paradis met at the top of a hill in a head-on collision.

P.O. Issues Deadline For Christmas Mailing

As there will be no delivery of mail on Christmas Day business people can, in the following way, extend additional co-operation that the Post Office will need to accomplish delivery of its Christmas mails on time.

Use only standard size envelopes and cards. These run through cancelling machines swiftly and facilitate handling in many ways. Outsize cards and envelopes compel cancellation and dating by hand, a much slower operation involving extra handling.

Place addresses all one way with correct postage affixed to upper right corner and show return address on all covers.

Securely tie letters for local delivery, letters for other places, and Air Mail letters in separate bundles. Then hand these bundles in at the Post Office wicket designated for bundles of letters. Bulk mailings of fully prepaid mail matter and bags of metered mail should be delivered to the new Forward Mail Building, at the CNR Depot, Entrance, 98th Street.

Keep business mail tied in bundles separate from other mail.

Mail as early and as often in the day as possible.

Ensure local delivery of messages of greeting in time for Christmas. Mail before December 17.

Business firms planning to mail to customers and business associates such mementos as calendars, blotters, desk pads, etc., are urged to withhold mailings during the

peak of the local delivery period, December 10 to 24. Mailers who have in the past responded to this request by the Post Office have found that the mailing of these tokens of good-will have forfeited none of their welcome or effectiveness when despatched prior to the heaviest rush or just after it.

Reminder to Patrons

Unsealed Christmas Cards con-

taining not more than five words of hand-written salutation or greeting require prepayment as follows: 2 cents for the first 2 ounces or fraction, and 1 cent for each additional 2 ounces or fraction, to each separate address.

Your co-operation is very helpful at this time and is much appreciated.

ALBERTA TAKES LION'S SHARE OF PRIZES AT 25th ROYAL WINTER FAIR IN TORONTO

Alberta carried off the lion's share of prizes taken by Alberta entries at the 25th Royal Winter Fair in Toronto last week.

With young Alberta 4-H club members taking a major role, the grainmen of the province won five of eight world titles and the livestock men also placed well up in the events.

Officials of the fair pronounced it the "Most successful in the long history of the fair" as it closed its doors Saturday.

Here are some of the notable

Edward F. Noad of Claresholm took the grand championship honors for market cattle.

George S. Snow of Milk River won the world's barley title with a variety named "Campana."

Thomas F. Rathigan of South Edmonton captured the oats championship.

Teen-aged Ronald Leonhardt won the most highly-rated of all trophies—the world wheat championship for the second year in a row.

Thomas Corlett of Clairmont won the forage crop seed competition with an exhibition of the Alsike variety.

Chris Morck of Dixon won the world rye championship with an exhibit of the Petkus variety. He also won the rye title in 1951.

In addition, the Northern Alberta Dairy Pool at Peace River captured the world's butter championship.

Warren Smith of Olds took the grand championship award for purebred Herefords.

Ten Million Bushels Of Grain Shipped On N.A.R. Lines This Fall

Grain producers who make deliveries to elevators on lines of the Northern Alberta Railways are interested in the progress made by the railway so far this year. Over 10,000,000 bushels have been shipped so far this season. J. F. Cooper, general manager of the line, said that a total estimated crop of 58,000,000 bushels in Northern Alberta leaves nearly 48,000,000 bushels still to be moved out.

While no estimate was made of shipments for the 1953-54 crop season which will end next July 31, these are expected to exceed the previous record of 31,756,591 bushels in the 1951-52 season.

Since August 1, the NAR has handled 10,548,121 bushels of all grains, including 2,435,790 bushels of wheat. Owing to restrictions on deliveries to terminals at the Lakehead and at the Pacific coast, there has been a limited movement of northern grain to these outlets.

Shipments from Dawson Creek total 706,000 bushels of all grains to date, while Sexsmith has shipped 557,000 bushels; Grimshaw, 541,000 bushels; Barrhead, 472,000; Falher, 458,000; High Prairie, 412,324; and Dunes Creek, 405,121 bushels. From many other ship-out centres, came smaller amounts.

In addition to deliveries moved by the NAR, there are 11,401,598 bushels of all grains, including 5,719,899 bushels of wheat, in store in northern elevators. The big crop also has made it necessary for farmers in the Peace River country to make use of farm storage facilities. It is felt that there still is a large volume of grain on the farms waiting to be marketed apart from quantities held for seed or other needs.

Last year at this time, there were 3,371,430 bushels of wheat in storage in northern elevators, and 5,128,854 bushels of other grains.

For the crop year ended July 31, 1953, there were 30,896,522 bushels of all grains marketed over the NAR from north country points.

The movement was adversely affected early in the year by the grain handlers' strike at Vancouver and New Westminster elevators.

Officials of the NAR report there also is a heavy movement of livestock from the north country to Edmonton. The average now is 40 cars a week, mainly of cattle and hogs.

Turf experts say the best time for seeding lawns in Canada is the last two weeks of August or the first two weeks in September when moisture and temperature conditions are usually ideal.

SOCIAL CREDIT CONVENTION HEARS MANNING OUTLINE WORLD PROBLEMS

CALGARY* (BUP)—Annual convention of the Social Credit Party here last week was termed "the most successful on record," by the 200-odd delegates in attendance.

Feature speaker at the three-day gathering was Premier E. C. Manning.

Speaking to the League's annual banquet, Manning told the party that "wheat bombs" should be used to cure the world's economic ills. Claiming that Social Credit's formula for the material and spiritual well-being of Canadians could be applied to end friction between nations, Manning said the main problem is "one of distribution."

Most other countries, he said, lack the money to pay for Canadian wheat — "and we're sitting tight while other people go hungry." Manning said Canada should arrange to give the less fortunate countries goods on credit.

R. D. Jorgenson, MLA for Pembina, was elected president for his 14th term as the whole slate of party officers was re-elected.

Nearly 80 resolutions were considered, with 43 of them being approved, 31 turned down, and three were tabled.

A resolution presented by Edmonton delegates, calling for stiffer punishment of parents of delinquent teen-agers, was approved by the convention. The resolution urged that parents be made subject to "penalties other than financial responsibility" for their children's misbehavior.

The Social Crediters called for the creation of new money through "the appropriate use of Canada's credit" to extend loans to other

countries so that they can buy Canadian goods.

Welfare Minister Halmrast told the convention that he is going to Ottawa to discuss with federal authorities the Dominion Government's new plan to aid totally disabled persons.

The convention also passed a resolution calling for lifting of restrictions against the sale of colored margarine.

Premier W. A. C. Bennett of British Columbia was scheduled to address the convention, but was detained in Victoria by government business.

Dairy Cattle Make Good-Showing

First reports from the Royal indicate a first prize for Junior Bull calf in the Holstein section shown by Picard and Clark of Carstairs. This was in a strong class of 19. The mature bull "Larwill Ladysman" was third, in a class of 11 entries. The Senior yearling bull shown by J. W. Hosford, of Edmonton, stood eighth, as did the two-year-old bull shown by W. S. Geekie, of Calgary. Entries in the Senior calf class by A. Millington, of Medicine Hat, and C. Cox, of Calgary were eleventh and fourteenth respectively in a class of 36 entries. Mrs. Hosford's Junior heifer calf was fourteenth in a class of 30.

In the Jersey section the Senior yearling bull entered by Mr. C. Dixon of Edmonton, was eighth in a class of 14.

No group class winnings have yet been announced and a more complete report will be given in the next issue.

Of 164,000 people immigrating to Canada in 1952 more than 86,000 went to Ontario.

Marauding Bear Shot In Foothills

ROCKY MOUNTAIN HOUSE, Alta. (BUP)—A 600-pound black bear, six feet long, which has been raiding a lumber camp 20 miles west of Rocky Mountain House, has been shot by Camp Owner Del Ackers.

The bear tore boards of the cook-house, raided the winter rations, and was the cause of a coal oil fire in the camp.

The bear was shot when he strolled into the camp grounds recently. There was no doubt of the animal's identity — its fur was singed all up one side.

Four Airmen Live Through Plane Crash

CLARESHOLM (BUP) — Four airmen were hospitalized after spending the night in a blinding snowstorm when their plane crashed near the Clareholm RCAF station, 75 miles south of Calgary.

Their Expediter plane crashed

nine miles west of the station when it lost its course while attempting to land in the snowstorm.

The four occupants of the plane, which was on a flight from Yorkton, Sask., to Clareholm, were identified as Flight-Lieutenant H. Henn of Victoria, the pilot; Flying Officer A. Callegro of Vancouver, the co-pilot; Flying Officer W. Holland of Nelson, British Columbia, and Flying Officer W. Walls of Strathmore, Alta.

Henn suffered facial injuries, Holland received chest and foot injuries, and Walls suffered back and foot injuries.

Canada's public libraries stock some 6,800,000 books.

Throne Speech Discloses Proposed Policies At Parliament Opening

OTTAWA—In the traditional Speech from the Throne, the Governor-General of Canada, Vincent Massey, made reference to many plans and policies of the Liberal Government for the 1953-54 session of parliament. Text of the speech as read by Mr. Massey at the opening of the first session of the 22nd Parliament is as follows:

Honorable members of the Senate:

Members of the House of Commons:

It is a pleasure for me to welcome you to the opening of the 22nd Parliament. This is a time when, if peace is maintained, we have every reason to look forward to the continuing development of this prosperous and happy nation.

The coronation of our beloved Queen was an occasion for universal rejoicing. Her devotion to duty, her personal charm and her happy family life have assured Her Majesty of a warm place in the hearts of all her subjects and have strengthened our attachment to the Crown and to the traditions of our constitutional system of government.

Following the legislation enacted during the last Parliament, the changes in the royal style and titles have been proclaimed by Her Majesty.

Much remains to be done before there can be a permanent and durable peace in the world. My ministers therefore consider it would be unwise for the free nations to slacken our efforts to build up and maintain the necessary strength to deter aggression and they intend to continue to work to that end.

We have every reason for satisfaction that through the use for the first time of collective police action the objective of the United Nations in Korea has been substantially achieved. The aggressors have been driven back, the fighting has ceased and an armistice has been concluded. My government earnestly hopes that a political conference will ultimately succeed in restoring peace in Korea.

Canada has continued to contribute to those international projects which will promote human welfare and thereby remove some of the causes of unrest and dislocation. You will be asked to approve further assistance for relief and rehabilitation, for technical assistance and for continued participation in the Colombo Plan.

The alliance of the North Atlantic nations has been effective thus far in preventing aggression in Europe. My government continues

(Continued from Page 1)

to regard the treaty as one of the foundation stones of Canada's external policy. The formation of the air division of the Royal Canadian Air Force in Europe is now completed. The brigade group of the Canadian Army is performing its role effectively in the integrated force. Canadian naval strength is increasing.

Canada's total volume of external trade has reached record levels.

But dollar shortages in many countries have persisted and continue to create problems for some of our exporters. Another Commonwealth conference with respect to financial and economic matters is to be held in Australia early in the New Year.

Tariff concessions negotiated at Geneva in 1947, at Annecy in 1949, at Torquay in 1950 and 1951 under the General Agreement on Tariffs and Trade have been extended for an additional period.

MORE LIBERAL TRADE

My ministers are convinced that nations can best achieve economic strength and security through more Liberal trade and overseas investment policies and they are continuing their efforts to bring about the progressive reduction of trade restrictions.

At home we continue to enjoy general prosperity although there are some sectors of our economy which have been faced with difficulties. Our farmers have harvested the second largest wheat crop in Canadian history. Private capital investment has reached levels never before attained. Unemployment is at high levels.

While more houses are being built this year than ever before, the growing population of Canada requires a continued expansion of housing. You will be asked to consider measures to increase and broaden the supply of mortgage money so that more people with moderate incomes will be able to find facilities to assist them to build their own homes.

A bill to amend the Animal Contagious Diseases Act to provide for appropriate compensation to farmers whose hogs suffered from cholera will be placed before you.

MARKET ATTENTION

The scheme initiated during the last Parliament for insuring boats and certain gear has recently been improved and is helping to meet the hazards of the fishing industry. My government is giving particular attention to the development of markets for our fisheries and to the encouragement of more modern methods in the Atlantic coast fisheries, particularly in the province of Newfoundland where the methods are in the greatest need of improvement.

The strategic importance of the northern part of Canada has increased greatly in recent years. Its place in the economy of Canada is steadily growing and will continue to expand in future. You will be asked to consider a bill to change the designation and orientation of the department of resources and development and to define the responsibilities of the government with respect to the affairs

of the Yukon and the North West Territories, including the Arctic archipelago, and the welfare of the Eskimos.

You will be asked to amend the Pipe Lines Act to give the board of transport commissioners jurisdiction over all companies authorized to construct or operate inter-provincial or international oil or gas pipe lines.

The New York State power authority has accepted a licence granted by the federal power commission in the United States for the development of the United States share of power in the international rapids section of the St. Lawrence river. It is hoped that litigation in the United States will not have the effect of delaying the construction of the project.

As further steps in helping to improve social welfare, co-ordinated plans for rehabilitation of disabled persons are being worked out with the provinces and a measure to facilitate the establishment nationwide of a federal-provincial assistance program for totally disabled persons will be submitted for your consideration.

As provided by law you will be required to consider this year a complete revision of the Bank Act.

The bill for the complete revision of the Criminal Code which was not finally dealt with in the last Parliament will be submitted for your consideration.

A committee of penal experts has been appointed to examine and report upon methods of parole and remission of sentences.

Other measures to be placed before you for consideration include bills respecting the Canadian forces; the United Kingdom-financial agreement; the Ontario-Manitoba boundary; the extension for another year of the emergency gold mining assistance; and bills to amend the Bank of Canada Act, the Municipal Grants Act, the Explosives Act, the Opium and Narcotic Drug Act, the Customs Act, the Excise Act, the Excise Tax Act, the Atomic Energy Control Act and certain veterans' legislation.

Members of the House of Commons:

You will be asked to make provision for all essential services including our national defence and the meeting of our obligations

under the United Nations Charter and the North Atlantic Treaty.

Honorable members of the Senate:

Members of the House of Commons:

May Divine Providence bless your deliberations and help us to come nearer to a true and lasting peace.

Canadian railways are comparable with those of any other country in the world despite the fact that there are so few people to support the vast systems.
